# THURROCK URBAN DISTRICT COUNCIL

---

PUBLIC HEALTH DEPARTMENT,  
COUNCIL OFFICES,  
GRAYS, ESSEX.

TO THE CHAIRMAN AND MEMBERS OF THE  
THURROCK URBAN DISTRICT COUNCIL.

Ladies and Gentlemen,

I beg to present a combined Annual Report for the years ending 31st December, 1939 and 1940, respectively.

This is limited to a summary of essential facts and figures needed for post-war reference, and is by no means a complete record of the Department's activities during the two busiest years in its history. For reasons of security no details whatever of Civil Defence or war-time administration are given, but a comparison of this Report with previous issues will show that all the normal peace-time facilities continued to be provided.

Considerable demands were made upon all the staff for duties outside their normal work, and it will suffice to say that when circumstances required whole-hearted effort, long hours and sleepless nights, every member of the staff gave of his or her best.

I wish to record the invaluable help given by the local medical practitioners. For reasons I cannot make public they co-operated with the Department in ways that often caused serious dislocation of their own work, but in spite of the inconvenience entailed their response was cheerful and immediate. There are many voluntary helpers and organisations who deserve the Council's thanks for services rendered. What they have done I cannot reveal at present, as the same services may have to be operated again before the end of the war, but I feel confident that the Public Health Department will continue to fulfil any task demanded of it.

The support of the Council during two difficult years is gratefully acknowledged.

I am,

Your obedient servant,

W. T. G. BOUL, M.D., CH.B., D.P.H.  
*Medical Officer of Health.*

## SECTION B.

GENERAL PROVISION OF HEALTH SERVICES  
IN THE AREA.

## 1. (i) PUBLIC HEALTH OFFICERS OF THE LOCAL AUTHORITY.

These are set out at the commencement of this Report.

## (ii) (a) LABORATORY FACILITIES.

No change has occurred in the facilities provided under this heading.

## (ii) (b) AMBULANCE FACILITIES.

The ambulance facilities in the district are adequate. The Council maintains two infectious diseases ambulances, kept at the I.D. Hospital. Accident and non-infectious cases are dealt with by the St. John Ambulance Brigade, Grays Division, by agreement with the Council. Two vehicles are provided.

## (ii) (c) NURSING IN THE HOME.

There are within the district eight Nursing Associations serving South Ockendon, Aveley, Purfleet, West Thurrock, Grays, Stifford, Little Thurrock, Chadwell-St.-Mary, Tilbury, Stanford-le-Hope and Bulphan. In addition, the Grays Medical Comforts Committee continued its useful work during the year.

## (ii) (e) HOSPITALS—PUBLIC AND VOLUNTARY.

The following hospitals exist in the Urban District :—

Seamen's Hospital, Tilbury (general and casualty).

Orsett Hospital (E.C.C. and casualty).

Thurrock I.D. Hospital (infectious diseases and casualty).

On the outbreak of war certain alterations of policy and bed allocation were effected at these establishments. The normal peace-time accommodation has been reported upon annually up to 1938. For security reasons it is considered inadvisable to give any detailed facts regarding war-time bed accommodation, operating theatre facilities, special plant, etc., as the Ministry of Health and all other authorities concerned are in possession of full information. It may now be stated that each hospital has treated a number of casualties due to enemy action.

#### SMOKE ABATEMENT.

In the course of the year four smoke observations were taken, all of which were in respect of emissions of black smoke. Informal representations to the offending firms secured the necessary improvements.

#### MILK PRODUCTION.

The number of milk producing farms in the district is 56, as against 55 shown in last year's Report, the difference being brought about by the addition of one milk producing farm to the register.

The following improvements were effected at the various farms :—

Floors re-paved	...	...	2
Additional lighting provided	...	...	2
Cleansings	...	...	2

#### *Retail Dairies and Milkshops.*

A revision of the registered dairies within the area discloses the fact that there are 24 registered dairies as defined by the Milk and Dairies Order, 1926, and 70 registered persons who retail milk in the sealed receptacle in which it is received at the premises.

#### *Milk Retailers.*

Number of retailers licensed to sell :—

(a) Tuberculin Tested Milk	...	...	9
(b) Certified Pasteurised	...	...	0
(c) Accredited Milk	...	...	5
(d) Pasteurised	...	...	6

#### *Pasteurising Plants.*

There are two pasteurising plants within the district. One is a large comprehensive plant in which the apparatus for pre-heating, cleansing, heating and holding is incorporated in the one machine. The capacity is 1000 gallons per hour. The other plant is much smaller and has a capacity of 50 gallons only.

*Milk Samples (Ungraded).*

Tabulated statement of samples taken :—

Bacterial Count	Bacillus Coli.	No. of Sample
0—50,000	Absent in 0·01	25
50,000—100,000	Absent in 0·01	1
100,000—200,000	Absent in 0·01	0
Over 200,000	Absent in 0·01	0
0—50,000	Present in 0·01	1
50,000—100,000	Present in 0·01	1
100,000—200,000	Present in 0·01	4
Over 200,000	Present in 0·01	0

Over 200,000	Present in 0·001	3
		<hr/> 36 <hr/>

The majority of unsatisfactory samples were traced to the place of production, one of which was outside this authority's area. Failure to sterilise properly milk utensils was thought to be the predominant reason, and every endeavour has been made to persuade farmers to make full use of sterilising apparatus, and where no such apparatus exists, requests are being made that these should be provided.

*Graded Milks (Pasteurised).*

The following samples of pasteurised milk were taken with the results as indicated :

Bacteria per C.C.	Phosphatase Test Reaction under 2 3		Satisfactory
2,000	...	Yes	Yes
42,000	...	„	„
54,000	...	„	„
24,000	...	„	„
2,000	...	„	„
900	...	„	„
1,700	...	„	„
1,200	...	„	„
76,000	...	„	„
18,000	...	„	„
18,000	...	„	„
5,400	...	„	„
2,600	...	„	„
1,800	...	„	„
240,000	...	„	No
240,000	...	„	„
300,000	...	„	„
250,000	...	„	„
140,000	...	No	„

With regard to four of the unsatisfactory samples, in view of the fact that the milk was shown to be properly pasteurised (satisfactory Phosphatase Test), it can only be assumed that the high bacterial count was due to failure to cleanse satisfactorily the cooler or receptacles.

In the case of the last remaining sample, it would appear that a temporary breakdown occurred in the plant.

#### *Accredited.*

One sample of Accredited Milk was taken during the year, which proved to be satisfactory.

The Essex County Council, the licensing authority, frequently sample milk from Accredited farms, and copies of the bacteriologist's reports are forwarded to this authority in order that the case of any unsatisfactory sample may be investigated at the place of production.

#### WATER SAMPLES.

Samples were taken from the South Essex Waterworks Company's mains and from wells which were the source of domestic supply within the area, with the following results :—

Date		Premises		Result
23/1/39	...	Dwellinghouse	...	Satisfactory
9/2/39	...	Dwellinghouse	...	Satisfactory
9/3/39	...	Dwellinghouse	...	Satisfactory

*2/6/39	...	Farm	...	Grossly polluted
*2/6/39	...	Farm	...	Grossly polluted
*2/6/39	...	Farm	...	No undue pollution
8/6/39	...	Dwellinghouse	...	Satisfactory
*6/6/39	...	Farm	...	Sewage pollution
*6/6/39	...	Farm	...	Slight organic pollution
14/7/39	...	Dwellinghouse	...	Satisfactory
†5/10/39	...	Farm	...	Suspicious but not unwholesome
16/12/39	...	Dwellinghouse	...	Unfit for domestic use
14/12/39	...	Dwellinghouse	...	Satisfactory

\* These were not samples of drinking water, but were taken from ditches used by cattle in order to determine the extent to which pollution had taken place owing to the bursting of one of the Council's sewers and the escape of the contents into the ditches.

† These were samples taken from premises occupied by the Military Authorities.

There is one licensed Knacker's Yard within the district.

*Slaughter of Animals Act, 1933.*

A register of all licensed slaughtermen, pursuant to Section 10 (1) of the above mentioned Act is kept and the number so licensed is 63.

*Legal Proceedings.*

Proceedings were taken under Section 1 of the Slaughter of Animals Act, 1933, against the person on whose behalf an animal was slaughtered, such animal being intended for sale for human consumption, and the person by whom the animal was slaughtered, for failure to use a mechanically operated instrument.

The occupier of the slaughterhouse was fined £2 with £1 1s. costs, and a fine of 10/- was imposed upon the servant.

(This does not include houses on the Council's estates which are supervised by the Council's Housing Department as a matter of routine).

Methods employed for freeing infested houses from bed-bugs :

The taking down of all detachable woodwork, firing with a blow-lamp and spraying with a proprietary insecticide.

Methods employed for ensuring the belongings of prospective tenants of Council Houses are free from vermin :—

The belongings of prospective Council House tenants are inspected by the members of the Public Health staff and the circumstances disclosed reported upon to the Housing Department. If vermin are found to be present, the tenant is not accepted until conditions have been remedied. The tenant is usually lent the requisite plant and vermicide by the Public Health Department.

The disinfection of private houses is carried out by the owners or occupiers under the supervision of the Local Authority, whilst the disinfection of Council houses is undertaken by the Housing Department of the Local Authority.

#### SHOPS ACT, 1934.

##### *Section 10 (1) (a)—Ventilation.*

No. of shops at which there was insufficient ventilation ... 0

##### *Section 10 (1) (b)—Heating.*

No. of shops whereat means of providing and maintaining a reasonable temperature were found to be insufficient 32

The Department continued to apply energetically the provision of this Section. The commonest source of trouble arises in connection with butchers, greengrocers and fishmongers, together with open-fronted shops whatever class of commodity is sold. The latter type of premises is extremely difficult to deal with, and the only permanent solution is the closing in of the shop.

In three instances it was necessary to have recourse to legal proceedings.

“A” Grays Ward—in respect of an open-fronted greengrocer’s shop whereat heating had already been provided, but in which, despite several visits, the temperature did not reach 45 degrees Fahrenheit.

The defendant was fined £1.

“ B ” Grays Ward—in respect of a closed-in butcher’s shop whereat heating was provided only in the office cash desk. The temperature of the shop was considerably below 45 degree Fahrenheit.

On the morning that the case was heard, the defendant provided heating in the shop and the Bench adjourned the case *sine die*.

“ C ” Grays—in respect of a greengrocer’s shop provided with a sliding front. The occupier failed to make full use of the sliding front with the result that the temperature on several occasions was found to be below 45 degrees Fahrenheit although heating had been provided in the shop. The case was the subject of considerable legal argument regarding the precise meaning of Section 10, and the wording of the notice. The Bench subsequently dismissed the case.

In many other instances, failure to maintain a reasonable temperature was not occasioned by lack of heating so much as by maintaining open doors and these matters were rectified without recourse to legal proceedings.

*Section 10 (2).*

No. of shops at which there was insufficient sanitary accommodation	...	...	...	...	2
---	-----	-----	-----	-----	---

In each case additional sanitary accommodation was provided.

SECTION 109, ESSEX COUNTY COUNCIL ACT, 1933.

## MOVEABLE DWELLINGS.

It will be remembered that in my Report for 1938 I mentioned that a rigid application of Section 109 of the Essex County Council Act, 1933, had resulted in most of the caravans in this area being removed. One case was dealt with during the year under review, that of a caravan dweller in Portsea Road, West Tilbury, who appealed against the Council's decision to refuse permission to allow him to occupy a moveable dwelling. The case was adjourned pending an undertaking by the defendant to vacate the site within six months. This undertaking was observed.

## HOUSING ACT, 1936—OVERCROWDING.

The number of dwelling-houses overcrowded at the end of 1938 was 65. During the year under review, 13 cases were abated and three more cases were reported. Hence the number of cases of overcrowding to be dealt with is ten less than last year.

## REPORT OF THE SHOPS INSPECTOR.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting herewith my report of the action taken in the administration of the various Shop Acts during 1939.

*Legislation in Force.*

The following Acts and Orders are in operation within the Thurrock Urban District.

The Shops Act, 1912.

The Shops Act, 1913.

The Shops (Hours of Closing) Act, 1928.

The Shops Act, 1934.

The Shops Act, 1936 (Libraries).

The Retail Meat Dealers Shops (Sunday Closing) Act, 1936.

The Shops (Sunday Trading Restrictions) Act, 1936.

*Closing and Half-Holiday Orders.*

1. The Grays Thurrock Weekly Half-Holiday (No. 1) Order, 1913.
2. The Grays Thurrock Weekly Half-Holiday (No. 2) Order, 1913.
3. The Grays Thurrock Extension of Weekly Half-Holiday (No. 1) Order, 1913.
4. The Stanford-le-Hope Weekly Half-Holiday Order, 1913.
5. The Stanford-le-Hope Extension of Weekly Half-Holiday (No. 1) Order, 1913.
6. The County of Essex (Shops Exemption) (No. 5) Order, 1913.
7. The County of Essex (Shops Exemption) (No. 7) Order, 1914.
8. The County of Essex (Shops Exemption) (No. 8) Order, 1914.
9. The South Ockendon Weekly Half-Holiday (No. 2) Order, 1914.
10. The South Ockendon Weekly Half-Holiday Order, 1914.
11. The County of Essex (Shops Exemption) (No. 7) Order, 1914.

12. The Grays Thurrock Weekly Half-Holiday (No. 1) Order, 1915.
13. The Tilbury Weekly Half-Holiday (No. 1) Order, 1917.
14. The Grays Thurrock Closing Order, 1917.
15. The Tilbury Hairdressers Closing Order, 1917.
16. The Grays Thurrock Closing Order, 1922.
17. The West Thurrock Tobacconists (Hours of Closing) Order, 1929.
18. The Lambourne and Stifford Tobacconists (Hours of Closing Order), 1929.
19. The Little Thurrock Tobacconists (Hours of Closing) Order, 1930.
20. The Thurrock Urban District Shops (Sunday Trading Restrictions) Act, 1936, Order No. 1.
21. The Brightlingsea, &c., (Sunday Trading) Order, 1938.

Prior to the opening of hostilities, an endeavour had been made to make one comprehensive closing order for hours of closing and weekly half-holidays, but in view of the general situation, this matter has not been proceeded with.

#### SHOPS ACT, 1912.

No. of premises at which Form 1 was required to be provided 20  
 No. of premises at which Form 4 was required to be provided 1

In two cases informal action was taken in regard to complaints for failure to allow a weekly half-holiday.

#### SHOPS (HOURS OF CLOSING) ACT, 1928.

As a result of complaint and observations, 126 shops were visited and of these it was ascertained that in four instances the shops were open for the sale of goods after the statutory closing hours.

In most cases, warning letters were sent in regard to these offences, but in two instances legal proceedings were instituted.

The results of the various proceedings are tabulated hereunder :

" A " Grays Ward	...	...	finned 10/-
" B " Grays Ward	...	...	,, 10/-

## SHOPS ACT, 1934.

No. of premises at which Form E was required to be provided	3
No. of premises at which Form F was required to be provided	16
No. of premises at which Form G was required to be provided	Nil
No. of premises at which Form H was required to be provided	10
No. of premises at which Form K was required to be provided	9
No. of premises at which proper facilities for meals were required	Nil
No. of premises at which proper facilities for washing	
	were required 1

Of the foregoing instances, only one case was the subject of legal proceedings as hereunder :

“ A ” Tilbury Ward—Failing to keep record of hours worked by  
a young person                      ...                      ...                      Fined 7/6

Two instances of shop-keepers working their assistants in excess of the permitted number of hours were discovered, but in both cases, matters were adjusted satisfactorily by informal action.

## SHOPS (SUNDAY TRADING RESTRICTIONS) ACT, 1936.

Visits were made in connection with the administration of this Act, and the following contraventions were noted :

No. of premises at which Form I. was required to be provided	Nil
No. of premises at which Form VII. was required to be provided	4

In each case the omission was remedied after warning letters had been sent.

## SMOKE ABATEMENT.

In the course of the year, one smoke observation was taken, in respect of which no action was deemed necessary.

## MILK PRODUCTION.

The number of milk producing farms in the district is 55, as against 56 shown in last year's Report, the difference being brought about by the removal of two milk producing farms from the register and the addition of one.

The following improvements were effected at the various farms :—

Additional lighting provided	...	...	1
Cleansings	...	...	6

### *Retail Dairies and Milkshops.*

A revision of the registered dairies within the area discloses the fact that there are 24 registered dairies as defined by the Milk and Dairies Order, 1926, and 70 registered persons who retail milk in the sealed receptacle in which it is received at the premises.

### *Milk Retailers.*

Number of retailers licensed to sell :—

(a) Tuberculin Tested Milk	...	...	8
(b) Certified Pasteurised	...	...	0
(c) Accredited Milk	...	...	3
(d) Pasteurised	...	...	7

### *Pasteurising Plants.*

There are two pasteurising plants within the district. One is a large comprehensive plant in which the apparatus for pre-heating, cleansing, heating and holding is incorporated in the one machine. The capacity is 1000 gallons per hour. The other plant is much smaller and has a capacity of 50 gallons only, but at the time of compilation of this report the use of this plant had been discontinued.

*Milk Samples (Ungraded).*

		<hr/> 44 <hr/>

The majority of unsatisfactory samples were traced to the place of production. In the case of three of the samples marked \*, it was suggested by the Bacteriologist that the results might not show a proper indication of the cleanliness of the milk owing to the samples being delayed in transit by rail. In the case of six further unsatisfactory samples, the place of production was outside this Council's area and the matter has been taken up with the authority concerned.

*Graded Milks (Pasteurised).*

The following samples of pasteurised milk were taken with the results as indicated :

Bacteria per C.C.	Phosphatase Test		Satisfactory
	Reaction under 2·3		
60,000	...	Yes	Yes
34,000	...	„	„
54,000	...	„	„
1,800	...	„	„
19,000	...	„	„
44,000	...	„	„
800	...	„	„
9,000	...	„	„
23,000	...	„	„
9,000	...	„	„
23,000	...	„	„
1,200,000	...	„	No
3,000,000	...	„	„
400,000	...	„	„
440,000	...	„	„
420,000	...	„	„
480,000	...	„	„

With regard to the unsatisfactory samples, in view of the fact that the milk was shown to be properly pasteurised (satisfactory Phosphatase Test), it can only be assumed that the high bacterial count was due to failure to cleanse satisfactorily the cooler or receptacles.

In the case of the first three samples, subsequent sampling showed the milk to be satisfactory whilst in the case of the last three unsatisfactory samples, pasteurisation has now ceased,

#### WATER SAMPLES.

Samples were taken from the South Essex Waterworks Company's mains and from a well which was the source of domestic supply within the area, with the following results:—

### *Action Taken.*

In the case of the ten samples of milk which proved to be not genuine, the facts are as follows :—

(a) In four cases legal proceedings were taken resulting in fines totalling £2 14s. od.

(b) In one case the summons was dismissed.

(c) In two cases the summons was withdrawn on payment of costs by the defendant.

(d) In three instances warning letters were sent.

The remaining sample shown to be not genuine related to sausages which contained preservative without a notice being exhibited in the shop to this effect. A letter of warning was sent.
